DETAILED ACTION

1. This action is responsive to communications: Amendment filed 08/23/2006 to the original application filed 12/07/1999.

Claims 1, 3-6, 8-10, 12-16, and 18-33 are presented for examination. Claims 1, 10, 16, and 29 are independent claims.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 3-6, 8-10, 12-16, 18-28, and 30-33, drawn to format information in separate file, classified in class 715, subclass 522; and
 - II. Claims 29, drawn to display processing, classified in class 345, subclass 629.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, invention I has separate utility such as *displaying*

annotations corresponding to the previously stored annotation stroke data; and invention II has separate utility such as displaying the annotation in an ink layer that is superimposed over and blended with pixels on the document page.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
